

Cabale Meeting

Description

The Cabale conference table was originally designed in 1996, but in 2005 the whole Cabale collection was relaunched with a few improvements to offer the best possible solution.

The conference table is very simplistic with an elegant tabletop and thin legs that are slightly angled which gives the table character and charm. The table is made in different materials, shapes, and colors to give its users the creative freedom to choose the exact design they want.
