Values and principles – *Cornerstones*

HOLMRIS B8 is built around four key cornerstones that underpin our values and business practices. These cornerstones strengthen our identity and guide us in all aspects of our business.

These cornerstones serve as our compass, ensuring that we always act with integrity, innovation, and consideration for people and the environment.

01 Room for people

We create room where people flourish, develop, and attain their full potential, with our customers as well as within the company.

02 Sales and design

We combine aesthetics and functionality in our designs and offer customized solutions that meet our customers' unique needs and wishes.

Our roots and traditions are deeply anchored in Danish design and craftsmanship, which we proudly represent and enhance.

04 Sustainability

We are committed to sustainability and make constant efforts to minimize our environmental impact through responsible practices and innovative solutions.

Room for people

At HOLMRIS B8, a room is more than just a place where people gather. It is where people flourish. The business guru. The pleasure-seeker. The professor. The go-getter. The patient. The carer. The fun-lover. And everyone in-between. We believe that people need room for both personality and diversity. To thrive. To develop. To produce results. To rise to the occasion.

HOLMRIS B8 creates room for people. We do so at our customers with fabulous arrangements that support the room they provide for people, but to a great extent we also do so within the company.

We continuously work to create the framework for a sustainable and meaningful working life for employees.

We have a strong focus on ensuring well-being, knowledge and development that matches the individual employee's wishes and ambitions. Room for People is one of our core values, one of our cornerstones.

At HOLMRIS B8, we strive to create a healthy working environment where employees can grow and thrive. The foundation for this is an inclusive mindset where our flat organisational structure ensures equal and fair opportunities for all. Employee health and safety is a top priority. To support this, we are dedicated to not only complying with regulatory requirements, but also to surpassing them in our daily practice. We are committed to complying with relevant international standards, such as the UN Global Compact, ILO conventions and the UN Sustainable Development Goals (SDGs).
